

DAI 1000

Digital and AI Literacy

L13 - AI Limitations and Trends

Discussion (Select one from the following)

- AI Romantic Partners
- AI in Game Design and Production
- AI-Generated Fake Content

Arrangement

- Form a group of 2–5 students for discussion
- Select a topic to work on
- Pick up an answer sheet
- After discussion, summarize key points on the answer sheet and submit it after class.

Note:

No AI and Internet Search

Discuss and speak out loud

AI Romantic Partners

https://www.bilibili.com/video/BV1Ti2DY5EJt/?spm_id_from=333.337.search-card.all.click&vd_source=b0e15bdbda6a17abcc8c653915e36a8f

https://www.bilibili.com/video/BV1yjLEzEE7c/?spm_id_from=333.337.search-card.all.click&vd_source=b0e15bdbda6a17abcc8c653915e36a8f

https://www.bilibili.com/video/BV1McSMBbE8G/?vd_source=b0e15bdbda6a17abcc8c653915e36a8f

Topic 1: AI Romantic Partners

1. Why do AI romantic partners exhibit obvious gender stereotypes? Where do these biases actually come from?

Please analyze their causes from the perspective of the four types of AI bias (human bias, data bias, algorithmic bias, and model deployment bias).

2. Can AI romantic partners ultimately replace real-life partners? Why?

AI in Game Design and Production

https://www.bilibili.com/video/BV1CeU5BKE2J/?vd_source=b0e15bdbda6a17abcc8c653915e36a8f

Topic 2: The Role of AI in Game Design and Production

1. In what ways can AI contribute to game design and production (e.g., content generation, narrative design, and 3D world generation...) ? What specific technical limitations still hinder its large-scale application in the game industry?
2. Will AI enable us to create more novel and creative games, or will it lead to more “formulaic” and repetitive designs? Why?

AI-Generated Fake Content

https://www.bilibili.com/video/BV1JkHCzFEnL/?spm_id_from=333.337.search-card.all.click&vd_source=b0e15bdbda6a17abcc8c653915e36a8f

Topic 3: AI-Generated Fake Content and Social Risks

1. When AI-generated false information leads to serious consequences, who should bear the responsibility?

AI model developers? False content creator? Platforms that disseminate such content? People who forward it? Users who believe the content?

2. Deficiencies in AI may help us identify deepfakes. In this situation: Should we continue to optimize AI to make it increasingly realistic? Or should we deliberately retain certain “imperfections” to facilitate human detection?

Arrangement

- Form a group of 2–5 students for discussion
- Select a topic to work on
- Pick up an answer sheet
- After discussion, summarize key points on the answer sheet and submit it after class.

No AI and Internet Search

Discuss and speak out loud

Final Exam

Time & Place: In your class time, at your class venue

Bring your laptop: No internet searches; No AI (ChatGPT, DeepSeek); No WeChat; **Only login to BB**

Cheat paper: **Three A4 cheat papers** (both sides)

Question set: Random questions! **Mind your own question set!**

Note: No Excel-related questions
